Foreign Dictionaries.
Bridgeport is getting to be a very cosmopolitan city and within our borders we have many who, if they do not speak English now eventually will become citizens of this great republic. It has been made possible with the aid of the different dictionaries now published to get a good knowledge of many English words. In half of the dictionary it gives the foreign word and right opposite it gives the English. In the other half of the dictionary it gives the English and then the foreign word. These dictionaries are made of special size so they readily slip in the pocket. They will assist very materially in learning the English or foreign language. They can be had in French, English, French, German, Spanish, English, English Spanish, Italian, English, English Italian, Danish, English, English Danish, Norwegian, English, English Norwegian, Polish, English, English Polish. They are for sale at Jackson's Book-Shop, 986-988 Main St. Library Corner. Clothes Are Made For You.

We study your tastes and preferences and sell you ready-for-service clothes which meet your approval, because of their style-distinctiveness. The character of the fabrics, the thorough workmanship, the exactness of the fit, and the individuality which they impart to the wearer make them not only the best ready-to-wear clothes produced, but equal in every respect to the highest made-to-measure garments. Another point, the custom tailors whose creations approach ours cost you about twice as much. It is a point to see that new exclusive styles for spring, hand-tailored garments from the world famous houses of Rogers, Peet & Co. and Kupst. See the announcement in our window about the range on which Mrs. Armstrong bakes.

Mrs. Armstrong is a delightful talker and likes to answer questions. The dishes prepared each day will be delivered to those present to be sampled, for "tasting is believing" when it comes to cooking.

Equally important will be the practical suggestions which Mrs. Armstrong makes as to how to secure the greatest possible amount of work out of a gas range with the least expense.
